https://www.w3schools.com/css/css_rwd_intro.asp

https://www.youtube.com/watch?v=ZdJSHEczi_0

- **Self-evaluation test:** <https://www.w3schools.com/quiztest/quiztest.asp?qtest=CSS>

- **Assignment Project 2:**

Create a responsive web page. You will code:

- i. HTML page with one image along with title and description to it.
- ii. Using CSS classes and their properties style your web page
- iii. Make the page responsive such that the image and text update themselves as per the change in the size of the page
